

WESTCHESTER COUNTY ASSOCIATION

Being part of the WCA is my way of giving back and it is an integral part of my company's continued success. We lead the way on so many important community and business issues. Over a decade ago, we led the way in the healthcare debate in response to the challenges our healthcare providers were facing. We provided vision for the transformation of the I-287 corridor eight years ago-from the Platinum Mile to the Medical Mileand now much-needed multi-family housing for the community. We've had one of the best workforce development programs in the country—as rated by the federal government— where we trained and placed more than 400 candidates into new jobs.

CHAIR, BOARD OF DIRECTORS WESTCHESTER COUNTY ASSOCIATION

> The WCA brings community and business leaders together to focus on the issues that are important to the continued growth and strength of Westchester County and the region. And, as members, we really take that to heart. It truly is about pursuing the greater good for our community.

The Westchester County Association is the most influential group of businesses and nonprofit organizations in the lower Hudson Valley. In addition to fostering strong connections, we advocate for and advance issues and programs that cultivate a robust economic environment for our members and the community at large. By helping to improve the underlying economic firmament, our members grow stronger and more prosperous. Whether it's our clear and powerful voice for business advocacy, or our various program initiatives in areas such healthcare and biotech, real estate, and workforce development, we focus on tangible results and real-world impact. The WCA gets things done.

WESTCHESTER COUNTY ASSOCIATION

With a long history as a trusted and respected leader in advocacy, the WCA identifies and addresses the issues and challenges that are important to our members.

We work with federal, state, municipal, business and non-profit leaders to advance initiatives in the best interest of our community.

THESE INCLUDE ADVOCACY EFFORTS TO:

- Address the rising costs of healthcare while fostering a robust regional healthcare delivery system
- Streamline and reform government
- Reform property tax laws
- Increase housing options for our increasingly diverse workforce
- Create innovative solutions to our regional workforce challenges
- Modernize our digital infrastructure and narrow the digital divide

As a longtime member and supporter of the Westchester County Association, AT&T is proud to work with this committed and thoughtful organization to advance the pressing technology and communications issues. WCA is a strong advocate for wireless technology, working closely with AT&T and other telecom companies to showcase the economic development benefits of 5G for business, public safety, healthcare and citizens.

HEALTHCARE AND LIFE SCIENCES: With the leadership from world-renowned healthcare systems, physician practices, and businesses, WCA advocates for governmental policies that protect and strengthen the foundation of our healthcare ecosystem. WCA develops critical policy recommendations to help reduce the cost of healthcare in our region. In addition, WCA brands Westchester and the region as a hub of excellence in life science innovation from biotech start-ups to global biotech giants.

WORKFORCE DEVELOPMENT: WCA works with key regional stakeholders to create a sustainable talent ecosystem that efficiently and effectively matches qualified candidates with unfilled jobs. This collaborative effort brings in experts from training providers, employers, and colleges and universities, and promotes best practices that help organizations to improve their recruitment and retention results.

DIGITAL CONNECTIVITY: WCA advocates for access to high quality and reliable fiber broadband and 5G as an essential foundation to advance innovation and smart growth in our region including: advancing telemedicine, supporting a growing remote workforce, creating more connected cities for municipal efficiencies and tax-payer savings, and enhancing our world-class education system.

For over 70 years, WCA has been ahead of the curve on economic trends and convening the most influential leaders to advance proactive policies and initiatives that foster economic vitality in the region.
