BUSINESS ORGANIZATION

Westchester County Association [8]

westchester.org

Westchester County Association's mantra to be the region's leading economic-development and business-advocacy organization was evident during the COVID-19 pandemic. Focusing on workforce development, real estate and housing, healthcare, and energy and sustainability, the WCA launched a series of advocacy and action initiatives designed to drive economic recovery from the pandemic to long-term growth. In 2019, the Hudson Valley Economic Development Corporation merged with the WCA, culminating in more legislative power and a greater voice for economic growth.
